	Not Considered	Considered
1. The proposed project would require the construction of new buildings, parking lots, and other infrastructure.		
2. The proposed project would require the excavation of deep foundations.		
3. The proposed project would require the installation of large storage tanks.		
4. The proposed project would require the installation of complex piping systems.		
5. The proposed project would require the installation of electrical systems.		
6. The proposed project would require the installation of mechanical systems.		
7. The proposed project would require the installation of fire protection systems.		
8. The proposed project would require the installation of security systems.		
9. The proposed project would require the installation of communication systems.		
10. The proposed project would require the installation of environmental monitoring systems.		
11. The proposed project would require the installation of waste management systems.		
12. The proposed project would require the installation of water treatment systems.		
13. The proposed project would require the installation of air pollution control systems.		
14. The proposed project would require the installation of noise abatement measures.		
15. The proposed project would require the installation of vibration mitigation measures.		
16. The proposed project would require the installation of seismic retrofits.		
17. The proposed project would require the installation of flood protection measures.		
18. The proposed project would require the installation of windstorm protection measures.		
19. The proposed project would require the installation of pest control measures.		
20. The proposed project would require the installation of mold remediation measures.		
21. The proposed project would require the installation of asbestos abatement measures.		
22. The proposed project would require the installation of lead paint removal measures.		
23. The proposed project would require the installation of radon gas mitigation measures.		
24. The proposed project would require the installation of carbon monoxide detectors.		
25. The proposed project would require the installation of smoke detectors.		
26. The proposed project would require the installation of fire extinguishers.		
27. The proposed project would require the installation of fire alarm systems.		
28. The proposed project would require the installation of emergency lighting systems.		
29. The proposed project would require the installation of exit signs.		
30. The proposed project would require the installation of first aid kits.		
31. The proposed project would require the installation of eyewash stations.		
32. The proposed project would require the installation of safety showers.		
33. The proposed project would require the installation of fall protection equipment.		
34. The proposed project would require the installation of personal protective equipment (PPE).		
35. The proposed project would require the installation of training programs.		
36. The proposed project would require the installation of safety protocols.		
37. The proposed project would require the installation of hazard identification measures.		
38. The proposed project would require the installation of risk assessment measures.		
39. The proposed project would require the installation of incident response plans.		
40. The proposed project would require the installation of disaster recovery plans.		
41. The proposed project would require the installation of business continuity plans.		
42. The proposed project would require the installation of crisis management plans.		
43. The proposed project would require the installation of public relations plans.		
44. The proposed project would require the installation of media relations plans.		
45. The proposed project would require the installation of stakeholder engagement plans.		
46. The proposed project would require the installation of community outreach plans.		
47. The proposed project would require the installation of employee assistance programs.		
48. The proposed project would require the installation of mental health services.		
49. The proposed project would require the installation of substance abuse testing programs.		
50. The proposed project would require the installation of drug testing programs.		
51. The proposed project would require the installation of alcohol screening programs.		
52. The proposed project would require the installation of random drug testing programs.		
53. The proposed project would require the installation of reasonable suspicion testing programs.		
54. The proposed project would require the installation of post-incident testing programs.		
55. The proposed project would require the installation of pre-employment testing programs.		
56. The proposed project would require the installation of return-to-work testing programs.		
57. The proposed project would require the installation of rehabilitation programs.		
58. The proposed project would require the installation of vocational training programs.		
59. The proposed project would require the installation of job placement services.		
60. The proposed project would require the installation of career counseling services.		
61. The proposed project would require the installation of resume writing workshops.		
62. The proposed project would require the installation of interview skills training.		
63. The proposed project would require the installation of networking opportunities.		
64. The proposed project would require the installation of mentorship programs.		
65. The proposed project would require the installation of leadership development programs.		
66. The proposed project would require the installation of management training programs.		
67. The proposed project would require the installation of professional development courses.		
68. The proposed project would require the installation of continuing education programs.		
69. The proposed project would require the installation of certification programs.		
70. The proposed project would require the installation of licensing programs.		
71. The proposed project would require the installation of accreditation programs.		
72. The proposed project would require the installation of quality assurance programs.		
73. The proposed project would require the installation of performance evaluation programs.		
74. The proposed project would require the installation of incentive programs.		
75. The proposed project would require the installation of recognition programs.		
76. The proposed project would require the installation of awards programs.		
77. The proposed project would require the installation of honorariums.		
78. The proposed project would require the installation of stipends.		
79. The proposed project would require the installation of travel allowances.		
80. The proposed project would require the installation of per diem rates.		
81. The proposed project would require the installation of housing allowances.		
82. The proposed project would require the installation of meal allowances.		
83. The proposed project would require the installation of transportation allowances.		
84. The proposed project would require the installation of childcare allowances.		
85. The proposed project would require the installation of dependent care allowances.		
86. The proposed project would require the installation of tuition reimbursement programs.		
87. The proposed project would require the installation of scholarship programs.		
88. The proposed project would require the installation of grant programs.		
89. The proposed project would require the installation of foundation grants.		
90. The proposed project would require the installation of corporate social responsibility programs.		
91. The proposed project would require the installation of philanthropic programs.		
92. The proposed project would require the installation of volunteer programs.		
93. The proposed project would require the installation of internships.		
94. The proposed project would require the installation of apprenticeships.		
95. The proposed project would require the installation of cooperative education programs.		
96. The proposed project would require the installation of work-study programs.		
97. The proposed project would require the installation of service learning programs.		
98. The proposed project would require the installation of experiential learning programs.		
99. The proposed project would require the installation of simulation programs.		
100. The proposed project would require the installation of virtual reality programs.
